Dear Parents/Carers,

Re: Google Classroom

I would like to draw your attention to an online resource that we have been trialling this year and that we will be using with increasing frequency as we continue to implement our GCSE focussed curriculum.

As a Google school all of our students have gmail accounts that enable them to be added to and join secure academic subject groups set up by teachers on Google Classroom. The Google Classroom app can be accessed in or out of school on desktop computers, laptops and personal devices, and teachers will be sending students extension tasks for completion both in and out of lessons. Parents will also have full secure access to the app so that they can not only be aware of the tasks that are being set but also keep up-to-date with the completion of assignments.

If you would like to discuss this with me in more detail, please contact me directly.

Yours sincerely,

Mr S Miles
Head teacher
